PROJECTS

Aimee's Cards (flashcard.aimeeha.dev)

Interactive flashcard web application

- Developed using Django REST Framework on the back-end and React - Typescript on the front-end to deliver an intuitive and captivating user interface.
- Implemented user authentication and secure password management, including customised email confirmation functionality for user registration and password resets.
- Enabled users to seamlessly explore public flashcard sets and conduct targeted searches, while also granting the capability to save and remove sets within their personal study library.
- Offered users a flexible and personalised experience to create sets either by manually inputting flashcards' details or by conveniently uploading a .csv file for automated creation.
- Leveraged Git and GitHub for streamlined version control and deployed the project successfully on AWS with HTTPS enforcement for heightened security.

CERTIFICATES

- Meta Front-End Developer Professional Certificate (2 modules remaining).
- Meta Back-End Developer Professional Certificate (3 modules remaining).
- Harvard University CS50w: CS50's Web Programming with Python and JavaScript (Jan 2023).
- Harvard University CS50x: CS50's Introduction to Computer Science (Jun 2022).

TECHNICAL SKILLS

Python, React, Typescript, HTML, CSS, SQL, JavaScript, Django, Git.

- Ranking in the Top 10% for React Test on TestDome.
- Ranking in the Top 25% for Typescript Test on TestDome.

EXPERIENCE

Management Accountant - UK & Italy

May 2019 - Apr 2023

Stuart Delivery Ltd.

London, England

- Managed the liaison with the top diamond client's Finance team, taking the lead in resolving their challenges and securing incremental weekly payments from 3.7 million GBP in 2020 to the highest of over 8.2 million GBP in the following years (from 89.7% to 95.6% of total revenue).
- Analysed large data sets containing approximately one million deliveries on a weekly basis to develop insights for revenue and commission reports.
- Implemented automated Excel files to minimise the preparation time for accounting bookings, most notably for the payroll reconciliation (approximately 87.5%, from two hours to fifteen minutes).
- Collaborated with the Chief Accountant and Procurement team to finalise the year-end audit and produce necessary inputs for the launch of the new payment platform and accounts payable system.

EDUCATION

Master in Behavioural Finance - Queen Mary, University of London

Sep 2017 - Dec 2018

Grade: Distinction

Bachelor of International Business Economics - Foreign Trade University, Vietnam

Aug 2013 - Apr 2017
